Live Entertainment Management

The Public Theatre of San Antonio, San Antonio, TX

Technical Director, Resident Designer April 2022 - February 2024

Responsible for all technical elements - scenic, lighting, sound - of the Russell Hill Rogers Theatre and Cellar Theatre's production schedule, including design, fabrication, installation, repair and maintenance.

- Hire and supervise technicians, contract, overhire and volunteer crews; provide support to outside designers; and train crews to execute technical elements of production, including flies, backstage and board operation.
- Draft designs for construction of set pieces, purchase necessary supplies and equipment, create and maintain budget, establish partnerships for in-kind and volunteer support, generate build and installation schedules.

- Maintain safe working conditions for actors, designers, and staff, ensure compliance with safety regulations and protocols, conduct regular safety checks and lead safety walkthroughs for cast and crew.
- Participate in production meetings to determine safe, appropriate and budget-conscious solutions for scenic design as well as providing artistic vision for all lighting designs and other design elements.
- Maintain an inventory of technical equipment and supplies and manage the scenic shop.
- Advise and support external groups using the theatre on all technical elements for rental events and community partnerships.

Six Flags Fiesta Texas, San Antonio, TX

In-Park Technician

Seasonal 2018-2019

- Operated light board and spotlights for two entertainment shows.
- Assisted in building and lighting experiential mazes for Halloween events.
- Maintained safe working conditions as a member of the fire safety team for pyrotechnic displays.

Kings Dominion Amusement Park, Doswell, VA

Lighting Designer

Seasonal 2018-2019

Entertainment Tech Supervisor

September 2015 - August 2017

Entertainment Tech Team Lead

June 2014 - September 2015

In-Park Technician

April 2014 - June 2014

- Supervised in-park technicians including scheduling, hiring and training for a crew of 15-20 people during the season and up to 100 people during Halloween build and strike events.
- Maintained budgets and purchasing for Entertainment Tech department throughout the season.
- Supported concert crew for load-in of lighting and truss for external concerts performed in the park amphitheater and operated spotlights during performances for KingsFest.
- Ensured quality control throughout the season with routine maintenance, upkeep and safety checks for scenery and lighting for Entertainment department.
- Assisted Rides, Park Services, and Aquatics departments with tools and lighting maintenance and repairs.
